

# Black Hole Sub instructions

## step 1

Print the parts on thicker paper (I always use 200 gsm paper myself) and gather your papercrafting tools!

## step 2

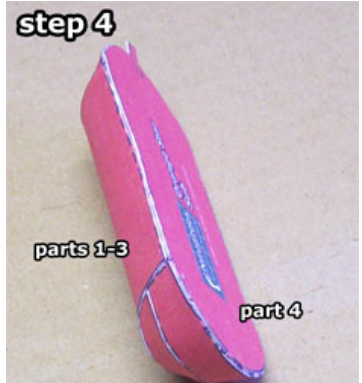

Pre-shape and assemble parts 1-3...

## step 3

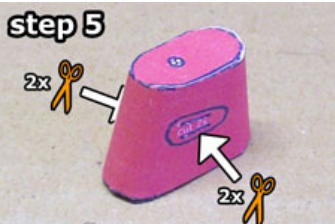

...and then glue them together as shown here. Then cut out part 4...

## step 4

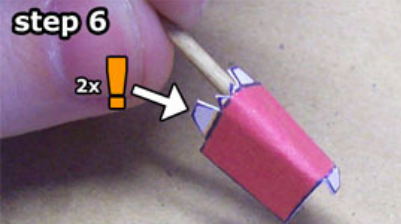

...and then glue it to the bottom of parts 1-3 like so.

## step 5

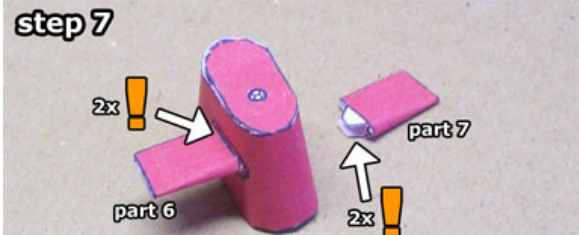

Pre-shape and assemble part 5, and don't forget to cut out the 2 slits on either side!

## step 6

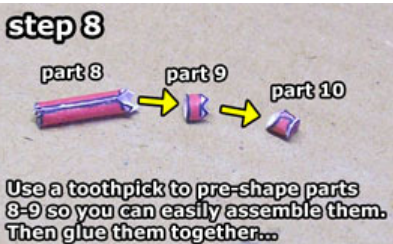

Pre-shape the middle of part 6 around a toothpick (DON'T score or fold the two bigger glueing tabs!)

## step 7

...then glue together the back and side of the fin, and glue it to part 5 by sliding the two larger glueing tabs through the slits. Do the same for part 7.

## step 8

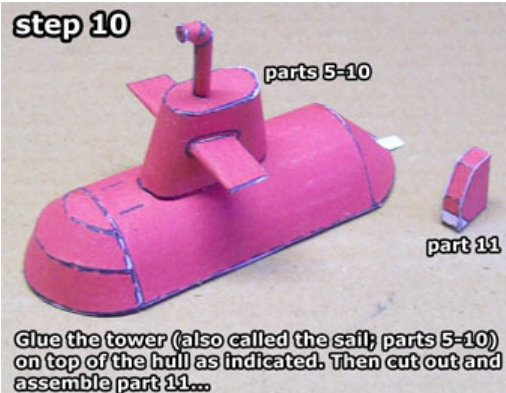

Use a toothpick to pre-shape parts 8-9 so you can easily assemble them. Then glue them together...

## step 9

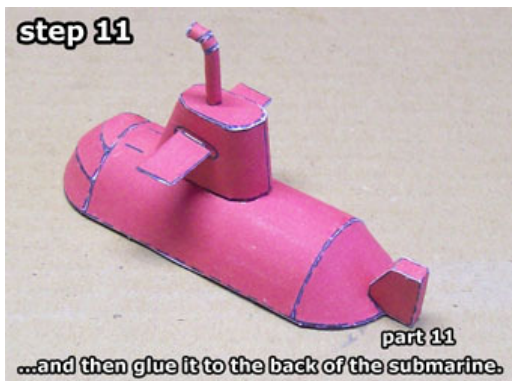

...and then glue it on top of part 5 as indicated.

## step 10

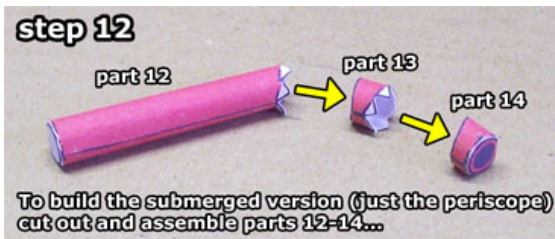

Glue the tower (also called the sail; parts 5-10) on top of the hull as indicated. Then cut out and assemble part 11...
